

MAGIC IMAGE ACCORDION

Magic Image Accordion is a user-friendly, highly customizable and easy to integrate solution to build your galleries the way you want them. This is the case when the gallery says more than simple words.

Features:

- By default, it comes with 7 different available skins;
- Supports images (JPG, PNG, GIF);
- Support special character (ø ç ý ù ú û ü ö ò ó õ å ä å ä ä è é ê ë ì í ï ñ);
- **You can open** slides with Click or MouseOver;
- **You can select** the label position to top or bottom;
- **You can set** to show or not numbers and (or) description;
- **You can change** font size & color for label, numbers, title and description;
- **You can change** color & transparency for background, preloader, description;
- **You can add** rounded corners to border (inner & outer) and buttons;
- **Enable / Disable or Show / Hide:** Each Slide, Numbers, Description;
- **Super easy to use;**
- *And much, much more!*

New Feature: From now you have possibility to load multiple instances of the same module on the same website!!!

This module contains 10 (ten) predefined slides, to add more (maximum 20) slides please contact support.

Troubleshooting: For any assistance, please do not hesitate to contact our support team.

Compatibility with Joomla:

Magic Image Accordion (version:1.0.6)

MAGIC IMAGE ACCORDION

Module Class Suffix	<input type="text"/>
SWFObject script	<input checked="" type="radio"/> Mode 1 (Local) <input type="radio"/> Mode 2 (Google) <input type="radio"/> Mode 3 (Disable)
Debug Mode	<input type="text" value="No (Recommended)"/> ▾
Multiple Instances	<input type="text" value="Original"/> ▾
Global Settings	
Global Width	<input type="text" value="650"/>
Global Height	<input type="text" value="300"/>
Accordion Skin	<input type="text" value="Skin1"/> ▾
Background Color	<input type="text" value="#ff0000"/>
Background Transparency	<input type="text" value="0.2"/>
Border Size	<input type="text" value="2"/>
Rounded Corners Outer	<input type="text" value="5"/>
Rounded Corners Inner	<input type="text" value="5"/>
Space	<input type="text" value="1"/>
Open Slide	<input type="text" value="Click"/> ▾

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling;
- **SWFObject script** - **Mode 1** will use a local copy. **Mode 2** will use the file hosted by Google. **Mode 3** will disable insertion but it will use the code;
- **Debug Mode** - No (Recommended);
- **Multiple Instances** - This parameter allow to load multiple instances of the same module on the same website.
How It Works: Make a copy of this module. After that, in the new copy set this parameter to "**Copy 1**"! Same, for other instances, but set this parameter to "Copy 2, Copy 3".

GLOBAL SETTINGS:

- **Global Width** - Set up the global stage width, the actual width of the flash animation;
- **Global Height** - Set up the global stage height, the actual height of the flash animation;
