

 **Cool Turbine 3D**

 2D or 3D ...this is the question. With the latest creation of Magic Point Team you can choose whether you want a spectacular 3D image rotator or a classical but elegant 2D slideshow. [Read More...](#)

Navigation buttons: Up arrow, Down arrow

Now, you can choose three different colors for buttons!

Magic Mini News is the ultimate way for you to keep your visitors up to date. With a stylish and classy display mode, you can redefine the concept of information. Keep an open mind, Information is POWER.

Features:

- You can set font size and color for each news (Title, Content, Link);
- You can write each news link;
- You can add image for each news;
- You can set target link for each news;
- You can select to change the news with buttons or with timer;
- Support special characters (â ù æ ç é è ê ë ï ð œ ù ü Û Ü Ç Ô Ï Ë È É Ç Æ Ä Å);
- Enable / Disable: Each News
- Supports images (JPG, PNG, GIF).

Note: When you change the size of the module, it is necessary to maintain the aspect ratio. **Example:** If your size is Global Width: 590px & Global Height: 80px, and you want modify width to 700px, then you need to set height to 95px (same if you want modify the height).

New Feature: From now you have possibility to load multiple instances of the same module on the same website!!!

This module contains 15 (fifteen) predefined news, **maximum 15**.
For any assistance, please do not hesitate to contact our support team.

Target New Window Same Window

**MAGIC
MINI NEWS**

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling;
- **SWFObject script** - **Mode 1** will use a local copy. **Mode 2** will use the file hosted by Google. **Mode 3** will disable insertion but it will use the code.
- **Debug Mode** - No (Recommended);
- **Multiple Instances** - This parameter allow to load multiple instances of the same module on the same website.
- **How It Works:** Make a copy of this module. After that, in the new copy set this parameter to "**Copy 1**"! Same, for other instances, but set this parameter to "Copy 2, Copy 3".

GLOBAL SETTINGS:

- **Global Width** - Set the global stage width;
- **Global Height** - Set the global stage height;
- **News Change** - Here you can choose the color of buttons or set Timer - changing news will be automatically (without buttons, timer is set to 5 seconds).

NEWS SETTINGS:

- **Enable News** - This function allows enabling or disabling news;
- **Choose Image** - Select (upload) or specify the location of the image that should be loaded;
- **Title Size** - Set the font size for title;
- **Title Color** - Set the color for title;
- **Title Text** - Enter the text to appear on title;
- **Content Size** - Set the font size for description;
- **Content Color** - Set the color for description;
- **Content Text** - Enter the text to appear on description;
- **Link Size** - Set the font size for link text;
- **Link** - Insert a URL link;
- **Link Text** - Enter the text to appear on link;
- **Target** - Choose target for URL link.
