Compatibility with Joomla:

Magic Responsive Slider (version:1.0.0)

Module Class Suffix	<input type="text"/>
Slide Image Width (px)	<input type="text" value="650"/>
Slide Image Height (px)	<input type="text" value="400"/>
Transition Effect	<input type="text" value="Slide"/>
Transition Duration	<input type="text" value="1 sec"/>
Slide Interval	<input type="text" value="4 sec"/>
Image Directory	<input type="text" value="images/banners"/>

Navigation

Show Prev/Next	<input checked="" type="radio"/> Yes	<input type="radio"/> No
AutoPlay Slides	<input checked="" type="radio"/> Yes	<input type="radio"/> No
Show Navigation	<input type="radio"/> Yes	<input checked="" type="radio"/> No
Navigation Position	<input type="radio"/> Left	<input checked="" type="radio"/> Right

Styling

Border Width (px)	<input type="text" value="0"/>
Border Color	<input type="text" value="#FFFFFF"/>
Border Radius (px)	<input type="text" value="0"/>

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling.

GLOBAL SETTINGS:

- **Slide Image Width (px)** - Set up the global width, the actual width of the module;
- **Slide Image Height (px)** - Set up the global width, the actual width of the module;
- **Transition Effect** - Select your transition effect. Available effects: Slide & Fade;
- **Transition Duration** - Select your transition duration. 1 to 5 seconds;
- **Slide Interval** - Select the interval between each slide. 1 to 10 seconds;
- **Image Directory** - Select a image directory.

How It Works: Please upload your images (folder with images) on your server in Joomla **IMAGES** folder. After that, from the parameter **Image Directory** choose the desired folder!

NAVIGATION:

- **Show Prev/Next** - Show Prev/Next navigation arrows;
- **AutoPlay Slides** - Select to enable or not autoplay feature. It can pass to next image automatically in a specific time (**Slide Interval**);
- **Show Navigation** - Enable or not the navigation buttons;
- **Navigation Position** - Choose the position for navigation buttons. Available positions: Left or Right.

STYLING:

- **Border Width (px)** - Set your slideshow border-width;
- **Border Color** - Set your slideshow border-color;
- **Border Radius (px)** - From here you can round the image corners.
