

This module was designed for a large volume of images (twenty five), coming with six beautiful effects and with quality of Magic Point products. In only five minutes and a few clicks, you can upgrade the looks of your website. All this at an unbeatable price of only \$3.99.

Features:

- **You can configure** the module, for any size you want;
- **You can change** the background color;
- **It can pass** to next image automaticity in specific time;
- **You can choose** six transition effects and time effect;
- **You can set** the size, color and distance for outer & inner circles;
- If you don't want navigation circles, simply, all you need to do is to set the size 0;
- Link can be added for each image and select target (Blank or Parent);
- *Super easy to configure.*

New Feature: From now you have possibility to load multiple instances of the same module on the same website!!!

This module contains 25 (twenty five) predefined images, **maximum 25**.

Troubleshooting: For any assistance, please do not hesitate to contact our support team.

Choose Image

Link

Link Target

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling;
- **SWFObject script** - **Mode 1** will use a local copy. **Mode 2** will use the file hosted by Google. **Mode 3** will disable insertion but it will use the code.
- **Debug Mode** - No (Recommended);
- **Multiple Instances** - This parameter allow to load multiple instances of the same module on the same website.
How It Works: Make a copy of this module. After that, in the new copy set this parameter to "**Copy 1**"! Same, for other instances, but set this parameter to "Copy 2, Copy 3".

GLOBAL SETTINGS:

- **Global Width** - Set the global stage width;
- **Global Height** - Set the global stage height;
- **Background Color** - Set the color of the background;
- **AutoPlay** - Select auto play feature. It can pass to next image automaticity in specific time;
- **Slide Time** - You can set the image duration time (seconds);
- **Time Effect** - You can define the image time effect (in seconds);
- **Effect Type** - Select a effect for images (6 effects).

NAVIGATION SETTINGS:

- **OuterCircle Size** - Set the size for outer circle (navigation circles);
- **OuterCircle Color** - Set the color for outer circle (navigation circles);
- **InnerCircle Size** - Set the size for inner circle (navigation circles);
- **InnerCircle Color** - Set the color for inner circle (navigation circles);
- **Circle Distance** - Set the distance between circles.

IMAGE SETTINGS:

- **Enable Image** - Choose if you want to enable or disable a specific image;
- **Choose Image** - Select (upload) or specify the location of the image that should be loaded in the slide;
- **Link** - Insert the link. Leave empty if you don't want a link on the image;
- **Link Target** - Choose a target for this link (Blank or Parent).
