

# MAGIC TEAM MEMBERS

The Magic Team Members can be used mainly to display a team members, with the possibility to add an image, a name, job title and biography for each member.

It is obvious that it can be used in a multitude of another ways (e.g. news reader), because you can resize and is very customizable.

## Features:

- You can change the module width and height;
- You can change side & mid box width and height;
- You can change the images width and height;
- You can increase or decrease the space between boxes;
- You can setup reflection and auto rotate;
- You can change the slide time and blur amount;
- You can add a link for each member image and set target (new or same window);
- Support special characters (âùæçèèëïïðœûüÛÛÙŒÔÏËÈÈÉÇÆÄÅÀ);
- And....much more.

**Note:** All images must have the same size you have set in back-and!

**New Feature:** From now you have possibility to load multiple instances of the same module on the same website!!

This module contains 17 (seventeen) predefined members, **maximum 17**.

For any assistance, please do not hesitate to contact our support team.

## Compatibility with Joomla:

## Magic Team Members (version:1.0.7)

### AutoRotation Settings

AutoRotation  ▼

AutoRotation Direction  Right to Left  Left to Right

Delay Time

Pause on MouseOver  ▼

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling;
- **SWFObject script** - Mode 1 will use a local copy. Mode 2 will use the file hosted by Google. Mode 3 will disable insertion but it will use the code.
- **Debug Mode** - No (Recommended);
- **Multiple Instances** - This parameter allow to load multiple instances of the same module on the same website.  
**How It Works:** Make a copy of this module. After that, in the new copy set this parameter to "**Copy 1**"! Same, for other instances, but set this parameter to "Copy 2, Copy 3 ....".

### GLOBAL SETTINGS:

- **Global Width** - Width of the team slider component, in pixels;
- **Global Height** - Height of the team slider component, in pixels;
- **Box Padding** - Distance between each member image and member box margins;

- **SideBox Width** - Width of the side boxes, in pixels;
- **SideBox Height** - Height of the side boxes, in pixels;
- **MidBox Width** - Width of the mid boxes, in pixels;
- **MidBox Height** - Height of the mid boxes, in pixels;
- **Box Spacing** - Distance between the 3 boxes, in pixels;
- **Arrows Spacing** - Distance between the arrows and component edges, in pixels;
- **Member Image Width** - Original width of member images, in pixels;
- **Member Image Height** - Original height of member images, in pixels;
- **Transition Time** - Members slider transition time. **Default: 0.3**;
- **Blur** - Blur intensity applied to sliding member boxes. **Default: 16**;
