

MAGIC VIDEO PLAYER **PRO**

This is an advanced video player, very customizable that supports full screen and is resizable. It can play FLV, MP4 and you can add a watermark to your video!

Features:

- You can choose the initial volume;
- You can hide Rewind, Info, FullScreen, Scale, Volume, Time, CenterPlay buttons;
- You can select between normal view, aspect size, full view;
- You can set the video buffer size;
- You can set the player to start when the page is loaded (autoplay);
- You can change the fonts size and color;
- You can choose which video to start first;
- You can add a Watermark to your videos and set position, transparency, link;
- You can add a preview and thumbnail image for each video;
- You can modify the playlist colors, transparency and size;
- The playlist can be showed on the left, on the right or disabled!
- Support special characters(âüæcéèëïïôœüüÜÜÜŒÖÏÏËËËÇÆÄÅ);
- It can play FLVs, MP4 videos;
- And ... much, much more!

Note: The video file is **not included** in the download package!

This module contains 10 (ten) predefined video clips, **maximum 10**.

This module supports multiple instances!

Troubleshooting: For any assistance, please do not hesitate to contact our support team.

Compatibility with Joomla:

Magic Video Player PRO
 (version:1.0.2)

Module Class Suffix	<input type="text"/>
Multiple Instances	Original <input type="button" value="v"/>
Global Settings	
Global Width	<input type="text" value="650"/>
Global Height	<input type="text" value="300"/>
X Position	<input type="text" value="center"/>
Y Position	<input type="text" value="center"/>
First Video	1 <input type="button" value="v"/>
AutoPlay	No <input type="button" value="v"/>
AutoPlay List	No <input type="button" value="v"/>
Preview Image	No <input type="button" value="v"/>
Progress Bar Color	<input type="text" value="#00CCFF"/>
AutoHide Nav	No <input type="button" value="v"/>
Buttons Nav Transparency	40% <input type="button" value="v"/>
Default Volume	50% <input type="button" value="v"/>
Buffer Size	3 sec <input type="button" value="v"/>
Video Mode	Full view <input type="button" value="v"/>

- **Module Class Suffix** - A suffix to be applied to the css class of the module (table.moduletable), this allows individual module styling
- **Multiple Instances** - This parameter allow to load multiple instances of the same module on the same website.
- How It Works:** Make a copy of this module. After that, in the new copy set this parameter to "**Copy 1**"! Same, for other instances, but set this parameter to "Copy 2, Copy 3".

GLOBAL SETTINGS:

- **Global Width** - Set up the global stage width, the actual width of the flash animation;
- **Global Height** - Set up the global stage height, the actual height of the flash animation;
- **X Position** - X position of video gallery. (Use integers if you want to give a certain position like 30) - default: **center**;
